Chairman Martin Voez.
Public Service Commission of Kentucky

Dear Mr. Voez:

I filed a complaint with the Commission in August 1979 concerning Echo Telephone Co. providing EAS to Louisville to some subscribers outside the Zanton boundary. (Administrative Case No. 218.)

Mr. Jim Johnson has been in touch with me several times concerning this matter. He told me he was waiting on the outcome of EAS to Louisville before attempting to rectify my complaint.

In Echo's brief that was submitted to the Commission June 15, 1981 on page 2 Line 5, 6, & 7 it says: The order in Case

#3908 has never been modified or rescinded except with regard to rates and, as such in binding upon Echo.

This is an untrue statement and I would like to be given the opportunity to prove to the Commission that it isn't true. I ask the Commission to send someone down to look at the situation. Instead of coming to me Mr. Johnson asked Echo to send the Commission a drawing of the boundary line.

Mr. Starnes came out with his local engineer and used an old barn as a landmark (which is not mentioned in case #3908) and established a boundary line that will include a small subdivision in the Lanston exchange.

Before your decision on case #6882 is made would you please have someone from the Commission come down and see for themselves that the boundary established by Starnes is not where the boundary was established in case #3908 and approved by the Commission.

Enclosure:

Sincerely,
Mrs. Alton Tucker
